

[Toyota Techstream 9.10.037 Crack](#)

**System Selection Menu**  
Select desired system and then press the arrow button to access the ECU.

- System** (Yellow) = ECU status unknown.
- System** (White) = ECU communication OK.
- \*System** (White w/Asterisk) = ECU not supported or not responding.
- \*System** (Light Blue w/Asterisk) = ECU communication OK in past times but not responding now.

**All ECUs** | Powertrain | Chassis | Body Electrical

| Engine and ECT | Cruise Control | ABS/VSC/TRAC      | EMPS               | Air Conditioner | Immobiliser | Theft Deterrent |
|----------------|----------------|-------------------|--------------------|-----------------|-------------|-----------------|
| SRS Airbag     | Main Body      | Combination Meter | Occupant Detection |                 |             |                 |
|                |                |                   |                    |                 |             |                 |
|                |                |                   |                    |                 |             |                 |
|                |                |                   |                    |                 |             |                 |
|                |                |                   |                    |                 |             |                 |
|                |                |                   |                    |                 |             |                 |
|                |                |                   |                    |                 |             |                 |
|                |                |                   |                    |                 |             |                 |
|                |                |                   |                    |                 |             |                 |
|                |                |                   |                    |                 |             |                 |
